Regal Prime Wealth Planner

Customer Service Hotline

399 95519 www.chinalife.com.hk

Regal Prime Wealth Planner (the “Plan”) helps you grow your wealth for a glorious future! With one-time premium payment, you can enjoy long-term wealth growth potential and whole-life protection. The Plan also provides multiple legacy planning tools, including policy split and flexible death benefit settlement options, supporting you to pass on a legacy to future generations.

Plan Features

Wealth accumulation with ease

Multiple potential returns

Lock in your gains

Pass your legacy to generations to come

Policy split

Unlimited change of insured

Designation of contingent insured

Life protection and flexible settlement options

Wealth accumulation with ease

Multiple potential returns to accelerate wealth building

The Plan is a participating insurance plan that offers you potential capital growth. Its policy value consists of the following components:

Guaranteed cash value grows over the policy years helping you accumulate wealth.

Terminal dividend¹ is a one-off non-guaranteed dividend, which is payable from the 3rd policy anniversary upon certain events.

Total amount of terminal dividend management account² is equivalent to locked-in terminal dividend and accumulated interest³ (if any) less withdrawal amount (if any).

Terminal dividend management option to help you lock in gains

To facilitate your financial need, starting from the 15th policy anniversary and every policy anniversary thereafter, you can apply to exercise the “terminal dividend management option²” to lock in a designated percentage of the terminal dividend of the policy. This option can only be exercised once for each policy year. The minimum percentage for each application is 10% and the maximum aggregate percentage of all applications is 50%. The terminal dividend which is applied to lock in will be transferred to the terminal dividend management account and will become locked-in terminal dividend. The locked-in terminal dividend will then be guaranteed and will accumulate with interest³ (if any) at a non-guaranteed rate. You may also withdraw from the terminal dividend management account for extra liquidity.

Pass your legacy to generations to come

Split your policy and pass it to your loved ones

You can distribute your wealth in the way you choose by exercising the hassle-free “policy split option⁴”, which allows you to divide your policy into multiple policies as you wish, whether you desire to pass your wealth to your next generation or prepare funds for your retirement.

Starting from the 5th policy anniversary, you may exercise the policy split option⁴ at any time to split the original policy into two or more new policies according to the designated percentages. Once the policy split is completed, you may also apply for change of insured⁵ to continue to accumulate your legacy and enjoy greater flexibility on wealth allocation.

Unlimited change of insured and pass on wealth across generations

We understand you wish to provide your loved ones with a secure financial future. This is why the Plan features the “change of insured” option⁵. Starting from the 1st policy anniversary, you can change the insured for unlimited times while the insured is alive, giving your wealth more time to grow. Together with the change of policyholder, you can pass the policy down through generations.

Contingent insured to sustain insurance coverage

You can appoint and prioritize a maximum of 2 contingent insureds⁶ at a time while the insured is alive and the policy is in force. In case the insured unfortunately passes away, we will arrange the contingent insured who is first in line to be the new insured according to relevant administrative procedures and orders. The policy will continue to be effective and the policy value will keep growing. Together with the change of policyholder, you can pass on a legacy to future generations.

Death benefit

In case the insured unfortunately passes away while the policy is in force and there is no contingent insured under the policy, we will pay the beneficiary a death benefit which is equal to the higher of:

- (i) 101% of accumulated premium due and paid of the basic plan at the date of death of the insured; or
 - (ii) sum of guaranteed cash value and non-guaranteed terminal dividend¹ (if any) of the basic plan at the date of death of the insured,
- plus total amount of terminal dividend management account² (if any), less all indebtedness (if any).

The policy will be terminated after we pay the death benefit.

Flexible death benefit settlement option

The Plan offers flexible death benefit settlement options to help you safeguard your family's financial future. While the insured is alive, you can choose to pay the death benefit to the beneficiary according to any one of the following options.

Option 1: Lump sum payment.

Option 2⁷: Death benefit will be paid at annual or monthly intervals over your selected payment term of 10, 20, 30, 40 or 50 years.

Option 3⁷: A designated percentage of death benefit (which must be equal to 5% or above of the death benefit) will be paid in a lump sum as the first instalment; while the remaining balance will be paid at annual or monthly intervals over your selected payment term of 10, 20, 30, 40 or 50 years.

Option 4⁷: Death benefit will be paid at annual or monthly intervals over your selected payment term of 10, 20, 30, 40 or 50 years. After paying the instalments, a designated percentage of death benefit (which must be equal to 5% or above of the death benefit) will be paid in a lump sum as the last instalment of death benefit.

Option 5⁷: Death benefit will be paid at annual or monthly intervals over your selected payment term of 10, 20, 30, 40 or 50 years. The instalment amount will increase 5% annually until the total amount of death benefit have been paid.

Flexible access to your wealth

To realize your financial goals, you can partially withdraw the guaranteed cash value and non-guaranteed terminal dividend¹ (if any) through reducing the basic amount⁸. The policy value and death benefit will be reduced accordingly while the total amount of terminal dividend management account² (if any) will remain unchanged.

Alternatively, you can apply for policy loan to borrow part of the guaranteed cash value when needed, while keeping the policy in force. Interest on policy loan which is not guaranteed will be charged at a rate determined by us from time to time.

24-hour worldwide emergency assistance service

If the insured is diagnosed with an illness or is injured in an accident outside the country of residence, he/she can access comprehensive coverage under the free 24-hour worldwide emergency assistance service⁹.

Simplified underwriting

To enable you to achieve your goals with ease, application of the Plan is easy. Simplified underwriting procedures are available and no medical examination is required.

Enrollment Terms

Issue age:	15 days to age 80		
Benefit term:	Whole life		
Premium payment mode:	Single payment		
Policy currency:	HKD / USD		
	Issue age		
	15 days to age 60	Age 61 to 75	Age 76 to 80
Minimum basic amount⁸:	HKD64,000 / USD8,000		
Maximum basic amount⁸:	HKD80,000,000 / USD10,000,000	Below HKD8,000,000 / Below USD1,000,000	HKD3,000,000 / USD375,000

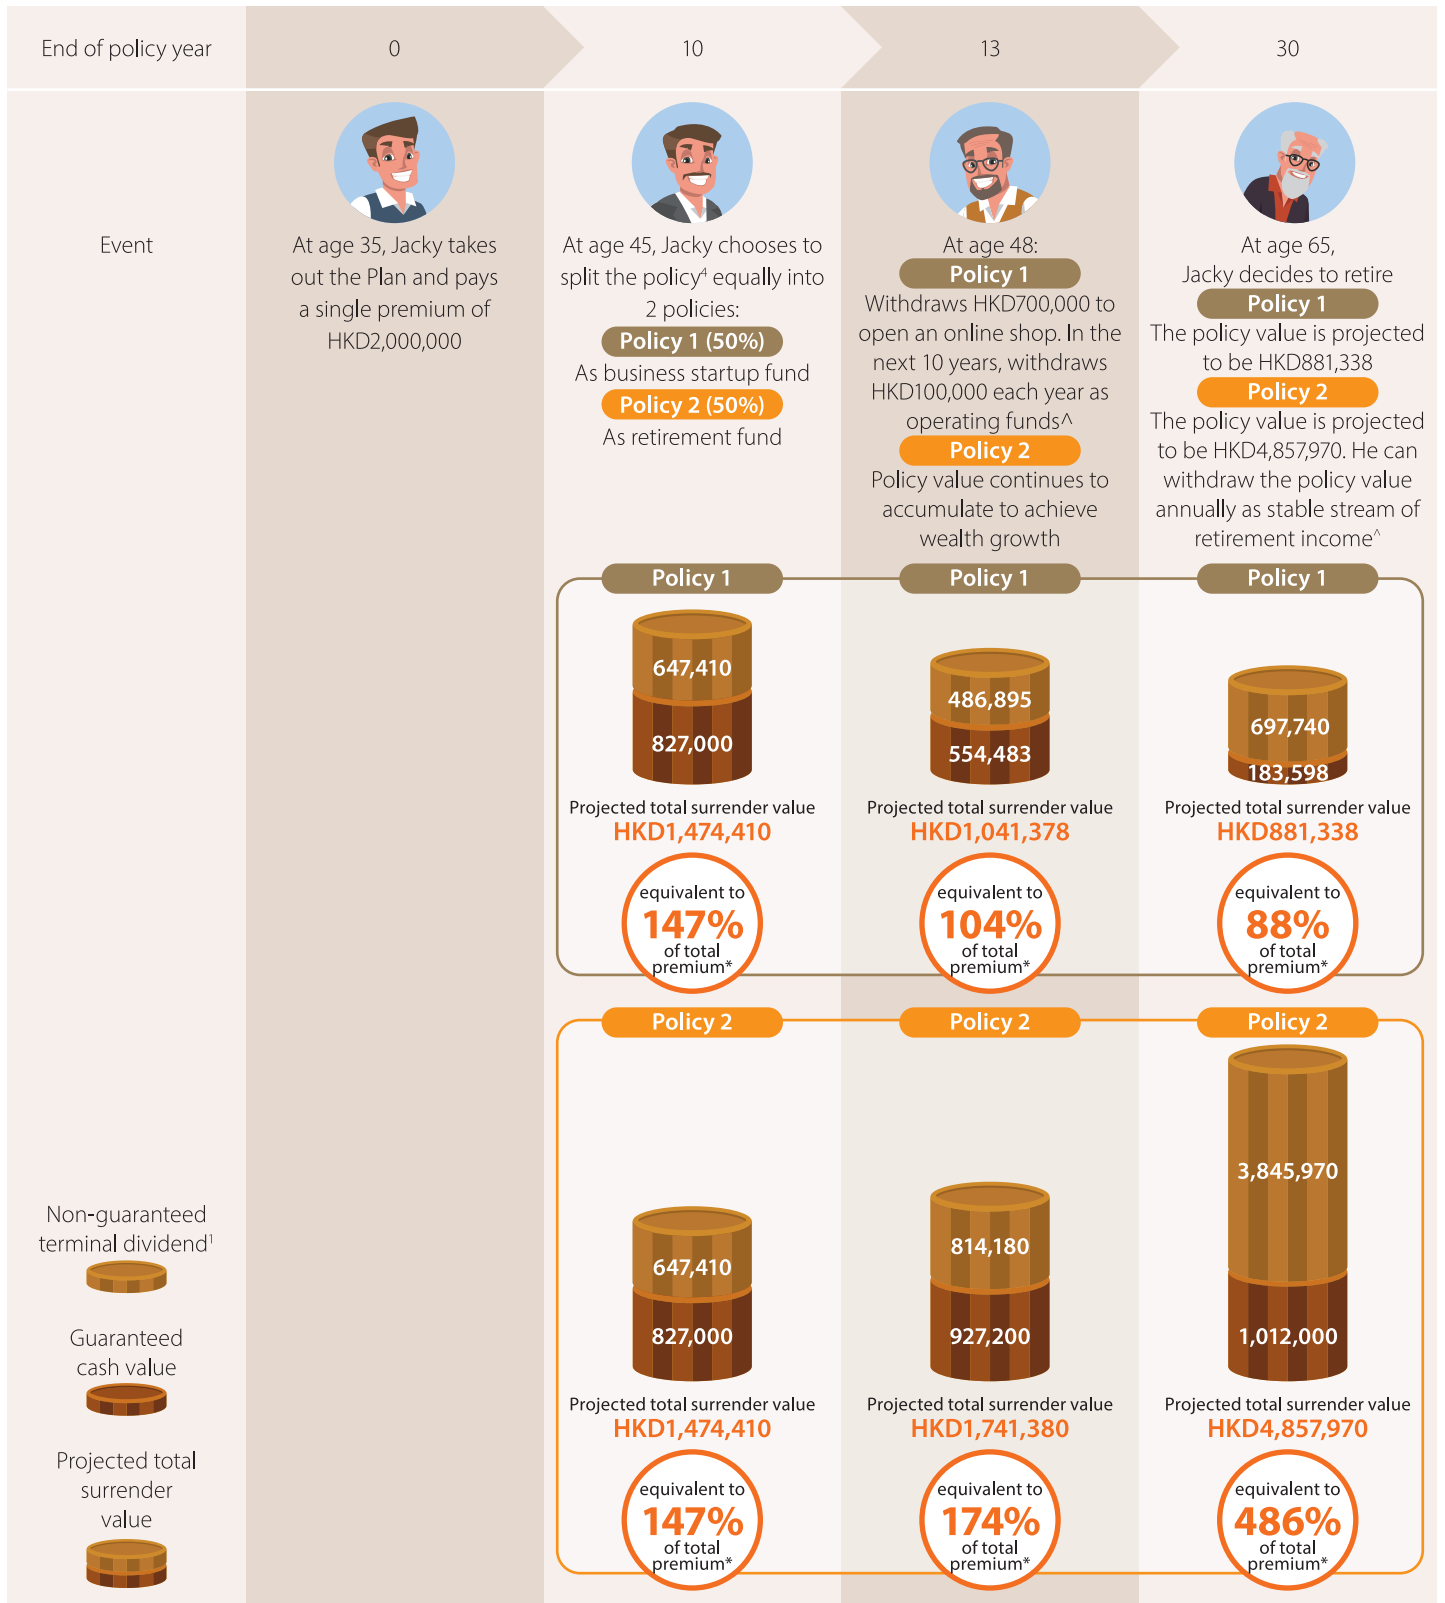

Case 1: Building up business startup fund and retirement reserves

Jacky is an interior designer. He always dreams of starting a business before age 50. Besides, he would like to start planning for retirement at an early stage. As such, he takes out Regal Prime Wealth Planner which helps him achieve flexible asset allocation through the feature of policy split.

Policyholder and insured: Jacky
 Issue age: Age 35
 Premium payment mode: Single payment

Smoking status: Non-smoking
 Basic amount⁸: HKD2,000,000
 Total premium: HKD2,000,000

(Policy currency: HKD)

^Δ You can withdraw the guaranteed cash value and/or non-guaranteed terminal dividend (if any) anytime but the policy value and death benefit will be reduced accordingly.
 * Total premium of each policy is HKD1,000,000 after policy split, which is calculated by the policy split percentage of 50%.

The figures in the above case are rounded to the nearest whole number and are for illustrative purposes only. The above case is based on the following assumptions:

- all premiums exclude levy;
- total surrender value is equal to the sum of the guaranteed cash value and non-guaranteed terminal dividend (if any), less all indebtedness (if any);
- terminal dividend is non-guaranteed and is a one-time dividend. It is not perpetually attached to the policy and the amount of terminal dividend will be subject to adjustment when it is declared; and
- there is no other withdrawal, no policy loan, no indebtedness and no terminal dividend management option exercised throughout the benefit term.

Case 2: Protection for loved ones

Michelle is the chief legal counsel of a corporation. She takes out Regal Prime Wealth Planner as she would like to plan for a secure financial future for her next generations so that their quality of life will be protected even in case of mishap.

Policyholder and insured: Michelle

Issue age: Age 45

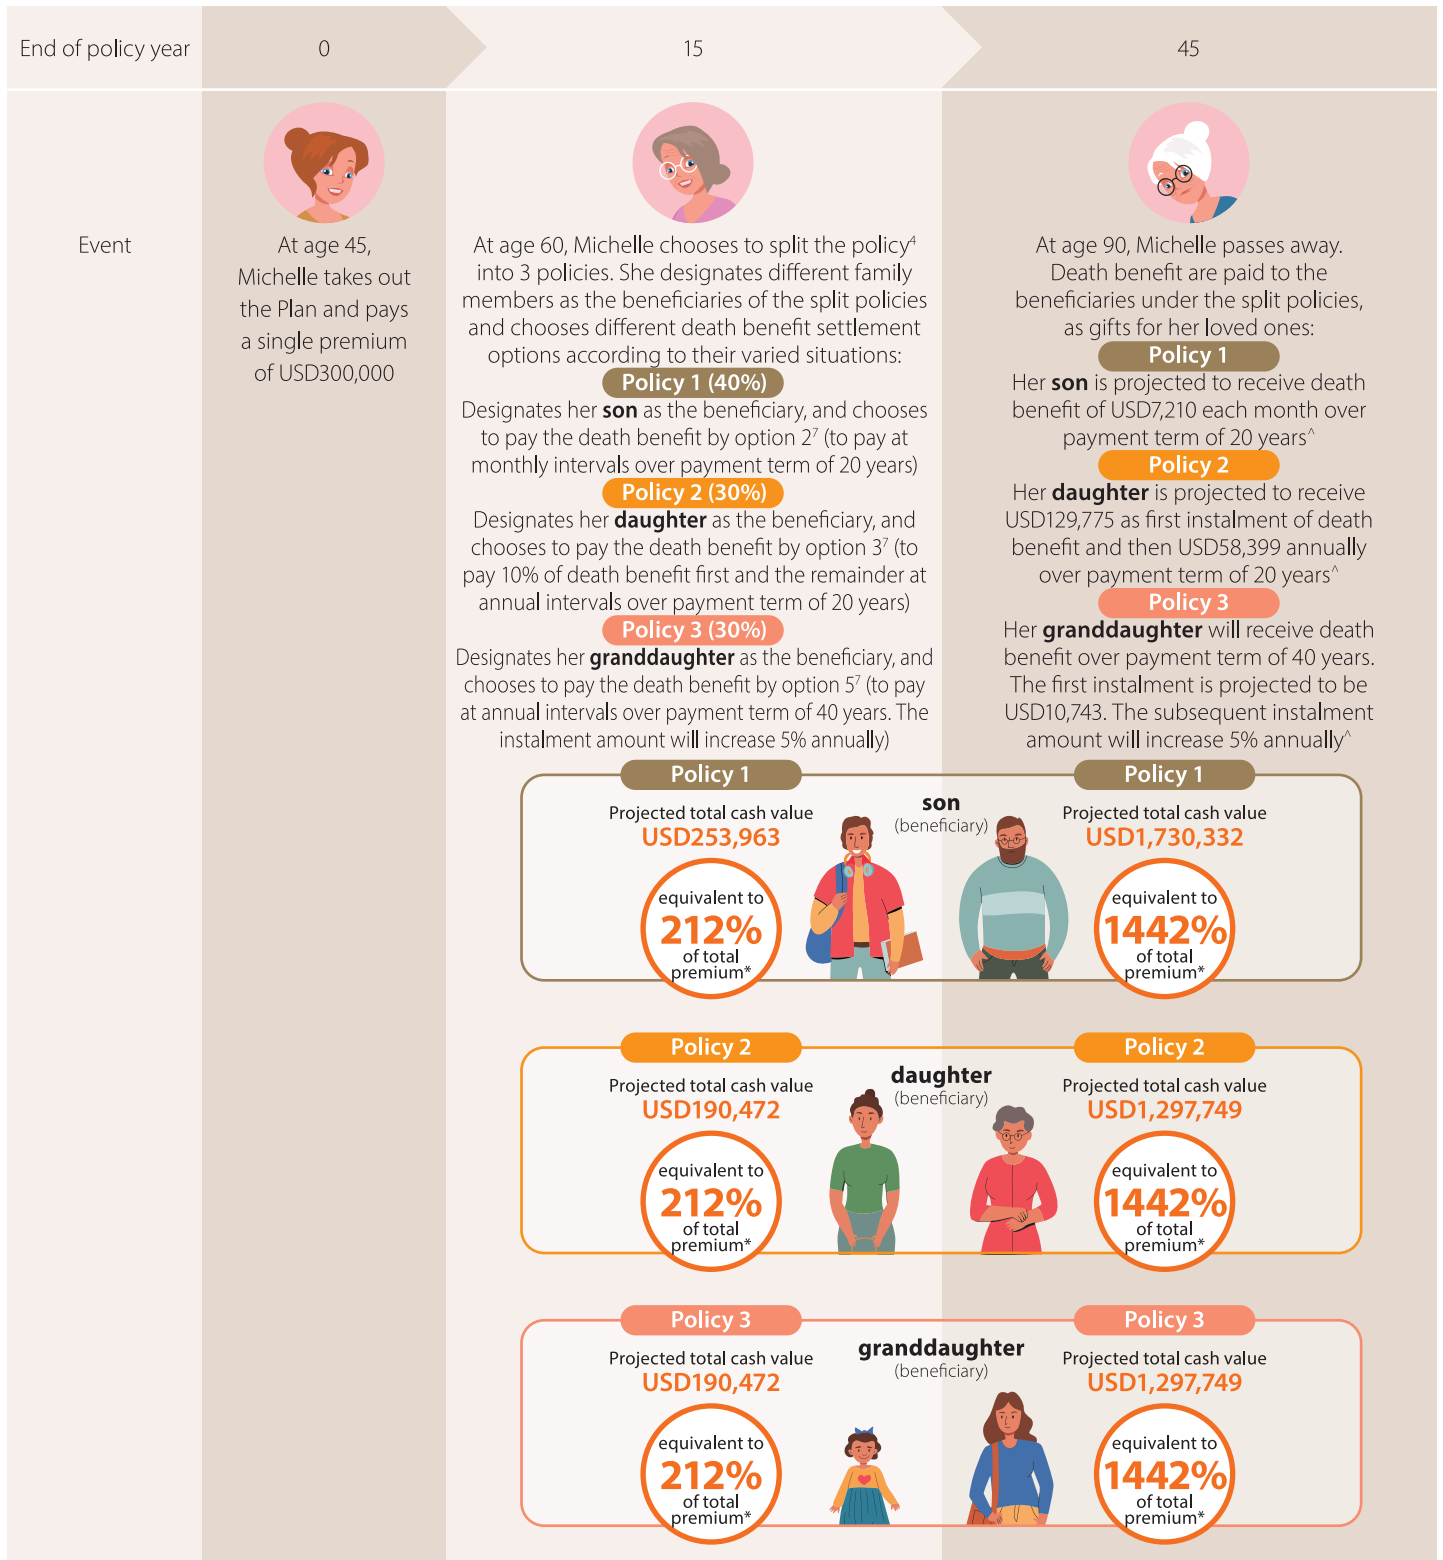

Premium payment mode: Single payment

Smoking status: Non-smoking

Basic amount⁶: USD300,000

Total premium: USD300,000

(Policy currency: USD)

[^] This amount does not include the accumulated interest (if any) which will be paid together with the last instalment of death benefit or the last death benefit.

* Total premium of policy 1 is USD120,000 after policy split, which is calculated by the policy split percentage of 40%. Total premium of policy 2 and policy 3 are USD90,000 after policy split, which is calculated by the policy split percentage of 30% respectively.

The figures in the above case are rounded to the nearest whole number and are for illustrative purposes only. The above case is based on the following assumptions:

- all premiums exclude levy;
- total surrender value is equal to the sum of the guaranteed cash value and non-guaranteed terminal dividend (if any), less all indebtedness (if any);
- death benefit is equal to the higher of: (i) 101% of accumulated premium due and paid of the basic plan at the date of death of the insured; or (ii) sum of guaranteed cash value and non-guaranteed terminal dividend (if any) of the basic plan at the date of death of the insured, less all indebtedness (if any);
- terminal dividend is non-guaranteed and is a one-time dividend. It is not perpetually attached to the policy and the amount of terminal dividend will be subject to adjustment when it is declared; and
- there is no other withdrawal, no policy loan, no indebtedness and no terminal dividend management option exercised throughout the benefit term.

Notes:

1. Terminal dividend is a one-off dividend and is non-guaranteed. Amount of terminal dividend shown in proposal illustration is just an indicative figure. Declared terminal dividend is not perpetually attached to the policy. It may be reduced or increased at subsequent declarations. Its actual amount will only be determined when it becomes payable. The actual amount may be lower or higher than the projected figure. Under some circumstances, actual amount of terminal dividend may be zero. The amount of the terminal dividend is affected by various factors including but not limited to the performance of the underlying investments, so the amount is relatively volatile and will move up and down over time. China Life (Overseas) reserves the right to revise the terminal dividend from time to time. Past record is not necessarily indicative of future result. For more information, please refer to clause 4 and clause 5 under "Important information" and "Non-guaranteed benefit" risk.

Starting from the 3rd policy anniversary, the terminal dividend shall be paid upon the occurrence of the earlier of the following conditions:

- (i) when the Company pays the death benefit (only applicable if the sum of guaranteed cash value and terminal dividend (if any) of the basic plan at the date of death of the insured is higher than 101% of accumulated premium due and paid of the basic plan); or
 - (ii) when the policy is surrendered by the policyholder.
2. For application to exercise the "terminal dividend management option", such application must be received by the Company within 30 days from the relevant policy anniversary (including the date of policy anniversary). The option will only be exercised provided that the application fulfills the application requirement and is confirmed by the Company. There is no limitation on the number of times of exercising this option when the policy is in force, but the policyholder can apply to exercise this option in writing only once for each policy year. The Company will process the exercise of this option only once for each written application. There must be no unpaid premium or indebtedness in the policy during application to exercise this option. The amount of locked-in terminal dividend is guaranteed after the Company's approval of the application. Once the application is approved by the Company, the terminal dividend which is applied to lock in will be transferred to the terminal dividend management account as soon as practicable. The locked-in terminal dividend will be deposited with the Company to accumulate interest (if any) and the interest (if any) will be accrued annually at a rate to be determined by the Company at its sole discretion from time to time. You can submit request to the Company to withdraw part or all of the locked-in terminal dividend and accumulated interest (if any) from terminal dividend management account in a lump sum without surrendering the policy. The withdrawal amount is subject to minimum requirement imposed by the Company from time to time.
The actual amount of the locked-in terminal dividend will only be determined after the application has been approved by the Company. The total amount of terminal dividend management account is equivalent to locked-in terminal dividend and accumulated interest (if any) less withdrawal amount (if any) from the terminal dividend management account. Upon the completion of transferring the terminal dividend to the terminal dividend management account by the Company as per application, the terminal dividend (if any) of the relevant policy year and subsequent policy years will be adjusted proportionally. The terminal dividend (if any) of subsequent policy years will be adjusted proportionally. Locked-in terminal dividend will not be allowed to be reset or reversed to terminal dividend. For details, please refer to the policy provision.
 3. The interest rate is not guaranteed. The actual benefits and/or returns may be lower or higher than estimates. China Life (Overseas) reserves the right to revise the interest from time to time.
 4. There is no limitation on the number of split policies for exercising the "policy split option". For the policy year in which the policy split option is exercised under the policy, the policyholder cannot apply policy split option for the split policy(ies) in the same policy year. Application for exercising the policy split option is subject to the followings:
 - (i) the basic amount of each split policy must not be less than the minimum basic amount of the basic plan determined by the Company at the time;
 - (ii) the sum of split percentage of all split policies equals to 100%;
 - (iii) there is no indebtedness under the policy (if applicable);
 - (iv) there is no claim pending for approval under the policy; and
 - (v) no change, cancellation, withdrawal or termination by the policyholder will be allowed once the application is submitted to the Company for exercising the policy split option.

Upon the Company's approval of the application for exercising the policy split option, the following will apply:

- (i) the policy split option will be effective provided that the application is approved by the Company with remarks duly signed by the Company's authorized signatory(ies) or endorsements. The effective date of policy split option will be the date of the Company's approval for such application (according to the Company's records);
- (ii) the policy will be terminated immediately and the split policies will take effect immediately when the policy split option is effective;
- (iii) the policy year, policy date, policy effective date and the latest date of reinstatement (if any) of each split policy will be the same as the policy year, policy date, policy effective date and the latest date of reinstatement (if any) of the policy as of the policy split option effective date;
- (iv) the policyholder, insured and beneficiary(ies) (with the respective designated percentage) of the split policies will be the same as the policyholder, insured and beneficiary(ies) (with the respective designated percentage) of the policy as of the policy split option effective date;
- (v) the settlement option of death benefit, contingent insured(s) and sequence of contingent insured(s) of the split policies will be the same as the settlement option of death benefit, contingent insured(s) and sequence of contingent insured(s) of the policy as of the policy split option effective date;
- (vi) cooling-off period will not be applicable to the split policies;
- (vii) all rider(s) under the policy (if any) will be terminated immediately on the policy split option effective date;
- (viii) the basic amount, guaranteed cash value, terminal dividend (if any) and total amount of terminal dividend management account (if any) of the basic plan as of the policy split option effective date will be allocated to each split policy according to the corresponding split percentage;
- (ix) the accumulated premium due and paid of the policy as of the policy split option effective date will be allocated to each split policy according to the corresponding split percentage;
- (x) the total amount of terminal dividend management account (if any) of the policy as of the policy split option effective date will be allocated to each split policy according to the corresponding split percentage and interest (if any) will accrue annually on the total amount of terminal dividend management account (if any) of each split policy at a rate to be determined by the Company at its sole discretion from time to time;
- (xi) similar terminal dividend management option will also be applicable to each split policy but if the terminal dividend management option has been exercised under the policy, the aggregate of the percentage of the declared terminal dividend designated by the policyholder in all applications under the policy will be included in the calculation for determining whether the maximum limit for the aggregate of the percentages of the declared terminal dividend designated by the policyholder in all applications for exercising the terminal dividend management option under each split policy will be exceeded;
- (xii) similar policy split option will also be applicable to each split policy starting from the policy year immediately after the policy year in which the policy split option becomes effective; and
- (xiii) unless otherwise specified above, all benefits, terms and conditions of each split policy will be the same as those of the policy.

5. When the Company receives the written request for the “change of insured”, the age of the new insured shall meet the following requirements:
- (a) If the attained age of the new insured is above the attained age of the first insured of the policy, the attained age of the new insured shall not exceed: (i) age 60; or (ii) the attained age of the first insured of the policy plus 10 years (whichever is lower); and
 - (b) If the attained age of the new insured is below or equal to the attained age of the first insured of the policy, the attained age of the new insured shall not exceed age 80.

The Company must be satisfied with the insurable interest between the new insured and the policyholder. Both the current insured and the new insured must be alive at the time of applying for the change of insured. Such request must fulfill the related administration procedure of the Company. The policy's basic amount, guaranteed cash value, policy date, policy year, premium expiry date, the latest date of reinstatement of the policy (if any), accumulated premium due and paid, death benefit, terminal dividend (if any), terminal dividend management option, total amount of terminal dividend management account (if any), policy split option (if any) and indebtedness (if any) will not be changed due to the change of insured.

6. When the Company receives the written request for “designating the contingent insured”, the age of the contingent insured(s) shall meet the following requirements:
- (a) If the attained age of the contingent insured(s) (on an individual basis if more than 1 contingent insured) is above the attained age of the first insured of the policy, the attained age of the contingent insured(s) shall not exceed: (i) age 60; or (ii) the attained age of the first insured of the policy plus 10 years (whichever is lower); and
 - (b) If the attained age of the contingent insured(s) (on an individual basis if more than 1 contingent insured) is below or equal to the attained age of the first insured of the policy, the attained age of the contingent insured(s) shall not exceed age 80.

The Company must be satisfied with the insurable interest between the contingent insured(s) and the policyholder. Such request must fulfill the related administration procedure of the Company. The policy's basic amount, guaranteed cash value, policy date, policy year, premium expiry date, the latest date of reinstatement of the policy (if any), accumulated premium due and paid, death benefit, terminal dividend (if any), terminal dividend management option, total amount of terminal dividend management account (if any), policy split option (if any) and indebtedness (if any) will not change after the contingent insured becomes the insured.

7. For the instalment option (i.e. option 2 to 5), starting from the payment date of the first instalment until the total amount of death benefit have been paid, interest (if any) will be accrued monthly on the remaining balance of death benefit at a rate to be determined by the Company at its sole discretion from time to time. The accumulated interest (if any) will be paid together with the last instalment of death benefit. If the beneficiary(ies) dies at any time before the Company has fully paid the death benefit, the Company shall pay the remaining balance of the death benefit with accumulated interest (if any) in a lump sum payment to the respective personal representative for the estate of the deceased beneficiary(ies) (in accordance with their entitlement, where applicable). If there are more than one beneficiary, in cases where the beneficiary(ies) survive the other(s) beneficiary(ies), the settlement option of death benefit designated by the policyholder shall continue to apply by the Company to pay the death benefit to the other surviving beneficiary(ies). The policy shall terminate when the death benefit is paid in full.
- (i) If the total amount of death benefit at the date of death of the insured is less than HKD400,000/USD50,000; or (ii) the annualized amount of instalment(s) of death benefit is less than HKD20,000/USD2,500 (applicable to options 2 to 5); or (iii) the policyholder does not specify any settlement option; or (iv) any of the beneficiary(ies) of the policy is not a natural person, we will apply option 1 and pay out the benefit amount to the beneficiary in a lump sum.
8. “Basic amount” means the amount shown on the policy information page or endorsement as the “basic amount”. The basic amount is used to calculate the premium and relevant values of the policy, but is not applicable to the calculation of the death benefit. If the basic amount has been amended while the policy is in force, the said premium and relevant values of the policy will be adjusted accordingly.
9. 24-hour worldwide emergency assistance service is provided by third party service provider and is not part of the policy. We will not guarantee the service quality and shall not be liable for any matter in connection with the services. China Life (Overseas) reserves the right to amend the terms and conditions thereof and to terminate the service from time to time without prior notice.

Important Information:

This product brochure is for reference only. It does not form a contract between China Life (Overseas) and anyone or any entity else. The detailed terms, conditions and exclusions of the Plan are subject to the relevant policy contract. You are reminded to review the policy contract and all relevant product materials and to seek independent professional advice if necessary. For a copy of the policy provisions, please contact China Life (Overseas) for enquiry.

1. The Plan is underwritten by China Life Insurance (Overseas) Company Limited ("China Life (Overseas)", the "Company" or "us / we / our"). China Life (Overseas) is responsible for the features, underwriting and benefit payments under the Plan. You should fully understand all of the risks involved in this Plan and consider whether this Plan is affordable and suitable to you before making your application.
2. China Life (Overseas) shall make the final decisions on the underwriting and claims. We shall rely on your submitted information to assess whether to accept or decline your application, and shall refund any premium and premium levy (if any) paid without interest for declined cases.
3. Exclusions and limitations - The information stated in this product brochure is for reference only. Please refer to the "general provisions" and "benefit provisions" for the detailed terms and conditions of exclusions and limitations such as incontestability, suicide and fraud etc.
4. Dividend philosophy - Policyholders of participating insurance plans can enjoy the potential surplus arising from the long term operation of the participating fund via a form of non-guaranteed dividend in addition to the guaranteed benefits. Your premiums will usually be allocated into a relevant participating fund and will be invested in a variety of asset classes according to our investment strategy. We will manage the relevant participating fund in a prudent manner and aim to ensure a fair distribution of surplus and risks between policyholders and shareholders, and among different groups of policyholders.

As dividends are mainly affected by the overall performance of the participating business, in order to alleviate the volatility of achieved gains and losses and the future uncertainties, in particular, future investment returns, we may take moderate smoothing measures to achieve relatively more stable dividends and strive to meet policyholders' reasonable expectation. We will maintain a fair distribution method or sharing ratio, and appropriate grouping to ensure policyholders are treated fairly, and to ensure policyholders' benefit expectation and rights are protected.

The current dividend projection is not guaranteed. We will review and declare the dividend at least once a year. When determining the dividend, we will consider the overall performance of all relevant policies on factors including but not limited to past experience as well as future prospect of investment returns, claims and surrenders:

Investment return – including the interest income, dividend income, investment outlook and changes to asset values.

Claims – including the costs of providing death benefit as well as other benefits under the product(s).

Surrenders – including policy termination, partial surrenders and the corresponding experience and impact.

If there are any changes in the actual dividends against the illustration or to the projected future dividends, such changes will be reflected in the policy anniversary statement.

The declaration of actual dividends is recommended by the Appointed Actuary and is subject to the approval of the Board (including one or more Independent Non-Executive Director(s)).

For products that are associated with an element of non-guaranteed accumulation interest rate, the Company will consider past investment experience as well as future expected return and other related factors when determining this non-guaranteed interest rate. If there are changes from market, expectation or policyholder behavior, the Company may apply reasonable adjustments to the non-guaranteed interest rate.

5. Investment strategy - Our investment philosophy aims at containing volatility and providing long term stable return. Meanwhile, in order to control and diversify risks, maintain adequate liquidity, and achieve higher potential returns for policyholders under an acceptable risk appetite, we will invest in a wide range of asset classes with consideration of the status of assets and liabilities. The target asset mix may also differ between different participating products. We will actively manage the investment portfolio and adjust the asset mix in response to the external market conditions.

Currently, our investments include bonds and other fixed income assets, such as government and corporate bonds and other fixed income instruments, to support the guaranteed liability payment. To enhance the potential performance of the investment portfolio, the Company will invest in equity-type assets and other investment instruments such as private funds, mutual funds and direct/indirect investment in properties or commercial institutions. Subject to our investment policy, we may also utilize derivatives to manage risks (including but not limited to currency risk) and enhance returns, or use security lending to improve returns. The investment portfolio will be diversified across different geographic regions and /or industries.

China Life (Overseas)'s current investment strategy on this participating plan is as follows:

Asset type	Target asset mix (%)
Bonds and other fixed income instruments	30% to 90%
Equity-type investment and other investments	10% to 70%

Please refer to China Life (Overseas)'s website www.chinalife.com.hk/products/dividend-philosophy-and-investment-strategy for dividend history, dividend philosophy, investment strategy, as well as the fulfillment ratio of China Life (Overseas).

6. Cooling-off right (not applicable to split policies under policy split option) - You have the right to cancel the policy within the cooling-off period and obtain a refund of any premiums and premium levy (if any) paid provided that no claim has been made under it. You must submit a written notice signed by you to China Life (Overseas) at 22/F, CLI Building, 313 Hennessy Road, Wan Chai, Hong Kong within 21 calendar days after the delivery of the policy or Notice of Policy Issuance (telling you about the availability of the policy and the expiry date of the cooling-off period) to you or your representative, whichever is earlier.

What are the key product risks?

Credit risk:

The Plan is a life insurance policy issued by China Life (Overseas). Any premium paid will become part of our assets and our financial strength will affect our ability to meet our contractual obligations to you under the policy. Therefore, you are subject to our credit risk.

Early surrender risk:

The savings component of the Plan is subject to risks and possible losses. Should you surrender the policy, you may receive an amount considerably less than the total amount of premiums paid.

Exchange rate and currency risks:

Any policy with foreign currencies involves risks, such as potential changes in political or economic conditions that may substantially affect the price or liquidity of a currency. The fluctuations in exchange rates may also cause financial losses to you during currency conversions. You should take exchange rate risk into consideration when deciding the policy currency.

The policy currency of the Plan offers HKD and USD. Currency exchange rate can go up and down. If the policy currency is USD but calculated in HKD, the calculation is subject to the exchange rate. There is a risk that you could lose a substantial portion of total value of the policy or benefit if the policy currency depreciates substantially against your local currency.

Inflation risk:

The cost of living in the future may be higher than expected due to the effects of inflation. Therefore, your current projected benefits and/or returns may be insufficient to meet your future needs even if China Life (Overseas) fulfills all of our contractual terms and obligations.

Liquidity and withdrawal risk:

You are obliged to hold the policy and pay the premium(s) for the designated period of time. If you surrender the policy, you may suffer a financial loss. In case you make partial withdrawals from the policy, your policy value, death benefit and other policy benefits will be affected, and you may need to pay the relevant handling fee or charges (if any).

Non-guaranteed benefit:

The Plan consists of non-guaranteed benefits and/or returns. The actual amounts of benefits and/or returns in the future may be different from the benefits and/or returns which project on the product materials. The product materials are for illustrative purposes only.

Policy termination:

The policy shall terminate upon the occurrence of any of the following events (whichever is the earliest):

- (i) the policy is surrendered by the policyholder; or
- (ii) the Company has paid the death benefit in full; or
- (iii) the indebtedness of the policy is equal to or exceeds the guaranteed cash value of the policy; or
- (iv) the application of policy split option has been approved by the Company and is effective.

Effective from 1 January 2018, all policyholders are required to pay a levy on each premium payment made for both new and in-force policies to the Insurance Authority (the "IA"). For premium levy details, please visit our website at www.chinalife.com.hk or contact our customer service hotline at 399 95519 or visit IA's website at www.ia.org.hk.

This product brochure is for distribution in Hong Kong only and shall not be construed as any provision of or offer to sell or solicitation to buy any insurance product outside Hong Kong. China Life (Overseas) does not provide or offer to sell any insurance product outside Hong Kong. The above information is for reference only. The detailed terms, conditions and exclusions of the Plan are subject to the terms and conditions of the policy contract of the Plan. For a copy of the policy provisions, please contact China Life (Overseas) for enquiry.

About China Life Insurance (Overseas) Company Limited

China Life Insurance (Overseas) Company Limited (“China Life (Overseas)”) is a wholly-owned subsidiary of China Life Insurance (Group) Company, China’s largest state-owned financial insurance corporation. For 21 consecutive years, China Life, the parent company, has joined the ranks of Fortune Global 500 companies, and ranked 54 in 2023, with brand value exceeding RMB485.567 billion¹.

China Life (Overseas) currently has presence in Hong Kong, Macau, Singapore and Indonesia. The Hong Kong branch was established in 1984, the Macau branch opened in 1989, while China Life Trustees Limited was set up in 1995. In recent years, the company successfully expanded its footprint into Southeast Asia, establishing the Singapore subsidiary as well as the Indonesia subsidiary in 2015 and 2018, respectively. In 2022, China Life (Overseas) achieved a total premium income of HK\$49.2 billion with the total asset value reached HK\$463.1 billion². The business of China Life (Overseas) covers life insurance and provident fund services, providing customers with quality products and services.

China Life (Overseas) is assigned an “A1” insurance financial strength rating by Moody’s³, and an “A” long-term local currency issuer credit rating and insurer financial strength rating by Standard & Poor’s⁴.
