## Case

Policyholder and Insured: Mr. Lam (aged 33); married  
 Occupation: Senior Account Service Manager  
 Current cover: Employers' group medical plan

Mr. Lam has been married for 2 years and his daughter will be born soon. He wants to ensure the quality of life for his family remains unchanged even if his health deteriorates. While medical costs keep soaring, he also wants a comprehensive and flexible medical plan to compensate the insufficiency of his employer's group medical protection while meeting the varying medical needs at his different life stages.

MasterCare Medical Plan has no lifetime limit<sup>2</sup>, and provides 3 different geographical coverage plans and 5 Deductible options, so Mr. Lam is able to choose the best protection according to his own budget and needs.

Insured's Age	33	40	58	60
Incident	<p><b>Mr. Lam takes out MasterCare Medical Plan</b> and selects:</p> <ul style="list-style-type: none"> <li>• Area of cover: Asia<sup>4</sup></li> <li>• Deductible: plan 3 - HKD28,000</li> </ul>	<p><b>Diagnosed with stomach cancer.</b></p> <p>Mr. Lam decides to receive treatments in Hong Kong and he can place a claim of the related medical expenses below:</p> <ul style="list-style-type: none"> <li>• Pre-Hospitalization Outpatient +</li> <li>• Confinement and gastrectomy +</li> <li>• Cancer Treatment Benefit (Radiotherapy) +</li> <li>• Post-hospitalization Outpatient +</li> <li>• Post-Hospitalization Home Nursing within 1 month upon Discharge</li> </ul> <p><b>Claimed in full after HKD28,000 Deductible</b></p>	<p><b>Diagnosed with pneumonia.</b></p> <p>Since Mr. Lam did not raise a claim during age 48 to age 58, the no claim deductible discount has accumulated to 55%. Therefore, he can place a claim of the related medical expenses below:</p> <ul style="list-style-type: none"> <li>• Pre-hospitalization Outpatient +</li> <li>• Confinement and gastrectomy +</li> <li>• radiotherapy +</li> <li>• Post-hospitalization Outpatient +</li> <li>• Post-Hospitalization Home Nursing within 1 month upon Discharge</li> </ul> <p><b>Claimed in full after Deductible and no claim Deductible discount:</b>            HKD28,000 x (1-55%)=12,600</p>	<p><b>Mr. Lam decides to retire.</b></p> <p>He can choose to reduce the Deductible to HKD0<sup>6</sup>. Since the Plan provides no lifetime limit<sup>2</sup>, Mr Lam can enjoy comprehensive medical protection without worrying about medical expenses and limit after retirement.</p>

## What are the key product risks?

### Credit risk:

This product is a life insurance Policy issued by China Life (Overseas). Any Premium paid will become part of our assets and our financial strength will affect our ability to meet our contractual obligations to you under the Policy. Therefore this product is subject to our credit risk.

### Exchange rate and Currency risks:

Any Policy with foreign currencies involves risks, such as potential changes in political or economic conditions that may substantially affect the price or liquidity of a currency. The fluctuations in exchange rates may also cause financial losses to you during currency conversions. You should consider the potential currency and exchange rate risks before deciding which Policy currency you should take.

### Inflation risk:

The cost of living in the future may be higher than expected due to the effects of inflation. Therefore, your current planned benefits and/or returns may be insufficient to meet your future needs even if we fulfill all of our contractual terms and obligations.

### Policy Termination:

The Policy will be terminated if (a) the Insured died; or (b) the lapse of the Policy pursuant to the "Grace Period" clause under the General Provision; or (c) the Policyholder request to surrender or terminate the Policy, all attached rider(s) will be terminated simultaneously. In case the Plan terminates within the Policy year, no Premium will be refunded, no matter any claim is made in that Policy year.

### Premium adjustment and renewal:

China Life (Overseas) has the absolute right and discretion to adjust the renewal premium payable under the Policy at the end of each Coverage Period (that is every year). Factors leading to premium adjustment may include but are not limited to the experience in claims, policy surrender, investment return, and expenses incurred by and/or in relation to this product.

Effective from 1 January 2018, all policyholders are required to pay a levy on each premium payment made for both new and in-force policies to the Insurance Authority (the "IA"). For levy details, please visit our website at [www.chinalife.com.hk/customerservice/levy](http://www.chinalife.com.hk/customerservice/levy) or IA's website at [www.ia.org.hk](http://www.ia.org.hk).
