Attentive care that extends for life,  
for your precious children

Seedlings require attentive nurturing to grow strong,  
just as your children need steadfast care to grow into  
successful individuals. Lifelong Attention Insurance Plan  
(the "Plan") offers whole-life protection with guaranteed  
cash coupons payable every 5 years, giving your children  
a gift of income and a reminder of your attentive love.

## Plan Features

### Essential coverage for lifelong protection

You are always ready to provide the best for your children, and to that purpose, there is nothing better than gifting them with a whole life protection. Better yet, you only have to pay premiums up to age 21 of the insured and he/she can enjoy protection until age 100.

### Accumulate wealth through guaranteed cash coupons

Starting from the 5<sup>th</sup> policy anniversary, the Plan will provide a guaranteed cash coupon equal to 15% of the sum assured on every fifth policy anniversary until age 100 or the death of the insured (whichever is earlier). You may withdraw<sup>1</sup> the declared cash coupons or leave them in the policy to earn interest<sup>2</sup> until policy maturity, or use them to pay future premiums.

### Enhance return through dividends

You will receive a non-guaranteed dividend<sup>2</sup> at every policy anniversary while the policy is in force. You can opt to leave the non-guaranteed dividends in the policy to earn interest<sup>2</sup> until policy maturity. Alternatively, you may withdraw<sup>1</sup> or use that to pay future premiums.

### Celebrating the policy maturity

On the policy anniversary immediately following the 100<sup>th</sup> birthday of the insured, a maturity benefit which is equal to the sum assured, plus accumulated guaranteed cash coupons and interest<sup>2</sup> (if any), accumulated non-guaranteed dividends and interest<sup>2</sup> (if any), and less all indebtedness (if any), will be provided.

### Life protection

In case the insured passes away, a death benefit will be provided, which is equal to the sum assured or the guaranteed cash value at the date of death of the insured, whichever is higher; plus accumulated guaranteed cash coupons and interest<sup>2</sup> (if any), and accumulated non-guaranteed dividends and interest<sup>2</sup> (if any), and less all indebtedness (if any).

### Extra peace of mind with optional coverage

You can attach optional benefits, such as hospitalization, critical illness, accident coverage and waiver of premium, to the Plan to supplement the coverage.

The figures in the above example are rounded to the nearest whole number and are for illustrative purposes only. The actual return of the accumulated interest rate is not guaranteed. The above example is based on the following assumptions:

- all premiums exclude levy; and
- the non-guaranteed dividends and guaranteed cash coupons are accumulated in the policy; and
- the current accumulated interest rates of the non-guaranteed dividends and guaranteed cash coupon are 4.5% p.a. at China Life (Overseas). The interest rates are not guaranteed; and
- the above example assumes that there is no withdrawal and no indebtedness throughout the benefit term and that all premiums are paid in full when due.

Notes:

1. You may withdraw the distributed guaranteed cash coupons and/or non-guaranteed dividends at any time without any charge, however, the policy value and death benefit will be affected in case of withdrawal.
2. The dividends and interest are not guaranteed. The actual benefits and/or returns may be lower or higher than the estimates. China Life (Overseas) reserves the right to revise these from time to time. The actual amount of dividend is subject to the overall performance of China Life (Overseas)'s participating businesses, including investment returns and claims, etc.
3. In addition to premiums, you have to pay policy fee of HKD200/USD25 (subject to policy currency) per year during the premium payment term.
4. If the required renewal premium is paid by you within the grace period, the policy shall continue to be in force. For details, please refer to the policy provisions issued by China Life (Overseas). If the policy is lapsed or surrendered early, the policy cash value received by you may be considerably less than the total amount of the premium paid.
5. If you choose the annual and premium prepayment option, you can withdraw the unused prepaid premium (including interest, if any) at one time. China Life (Overseas) will charge 2% of the withdrawal amount, at a minimum amount of HKD100 / USD12.5. You can withdraw the unused prepaid premium once only. The interest rate of prepaid premium is not guaranteed.
6. The total surrender value includes guaranteed cash value, accumulated non-guaranteed dividends and interest (if any), accumulated guaranteed cash coupons and interest (if any), less all indebtedness (if any).
7. The total death benefit is equal to the sum assured or the guaranteed cash value at the date of death of the insured (whichever is higher), plus accumulated guaranteed cash coupons and interest (if any), accumulated non-guaranteed dividends and interest (if any), less all indebtedness (if any).

## What are the key product risks?

### Credit risk:

The Plan is a life insurance policy issued by China Life (Overseas). Any premium paid will become part of our assets and our financial strength will affect our ability to meet our contractual obligations to you under the policy. Therefore, you are subject to our credit risk.

### Early surrender risk:

The savings component of the Plan is subject to risks and possible losses. Should you surrender the policy early, you may receive an amount considerably less than the total amount of premiums paid.

### Exchange rate and currency risks:

Any policy with foreign currencies involves risks, such as potential changes in political or economic conditions that may substantially affect the price or liquidity of a currency. The fluctuations in exchange rates may also cause financial losses to you during currency conversions. You should take exchange rate risk into consideration when deciding the policy currency.

### Inflation risk:

The cost of living in the future may be higher than expected due to the effects of inflation. Therefore, your current planned benefits and/or returns may be insufficient to meet your future needs even if we fulfill all of our contractual terms and obligations.

### Liquidity and withdrawal risk:

You are obliged to hold the policy and pay the premium(s) for the designated period of time. If you terminate the policy prior to the policy maturity date, you will suffer a financial loss. In case you make partial withdrawals from the policy, your policy value, death benefit and other policy benefits will be affected, and you may need to pay the relevant handling fee or charges (if any).

### Non-guaranteed benefit:

The Plan consists of non-guaranteed benefits and/or returns. The actual amounts of benefits and/or returns in the future may be different from the benefits and/or returns which project on the product materials. The product materials are for illustrative purposes only.

### Policy termination:

The policy will be terminated if (a) the insured passes away; or (b) the due premium has not been paid within 31 days after the premium due date, and the policy has no remaining guaranteed cash value; or (c) the indebtedness of the policy is equal to or exceeds the guaranteed cash value of the policy.

Effective from 1 January 2018, all policyholders are required to pay a levy on each premium payment made for both new and in-force policies to the Insurance Authority (the "IA"). For levy details, please visit our website at [www.chinalife.com.hk](http://www.chinalife.com.hk) or contact our customer service hotline at 399 95519 or visit IA's website at [www.ia.org.hk](http://www.ia.org.hk).
