# Critical Illness Multiple Protector

## Pioneering self-selected critical illness benefit offering you true personal protection

An unexpected critical illness can threaten your wellbeing and compromise your quality of life. Advances in medical science have made recovery easier than ever, but external factors can still lead to recurrence, putting your family under even heavier financial pressure.

The Critical Illness Multiple Protector series (the “Series” or the “Plan”) comprises the Critical Illness Multiple Protector (the “Standard Plan”) and Critical Illness Multiple Protector (SS) (the “SS Plan”). The Series provides essential coverage for critical illnesses and special diseases, packaged together with the multiple critical illness benefit, which enables you to make up to four additional claims should recurrences arise after your initial claim for enhanced support during difficult times. The “**SS Plan**” offers these benefits and more, introducing **2 extra claims through the multiple cancer benefit**, along with the **pioneering self-selected critical illness benefit**, which provides enhanced protection for 3 critical illnesses of your choice.

## Critical illness benefit<sup>2</sup>

### First critical illness claim before age 66 pays 180% of the original sum assured, and all subsequent premiums will be waived

An unexpected critical illness can threaten your wellbeing and put your family under tremendous financial pressure. That is why the Series provides enhanced protection for critical illness benefit: if the insured is diagnosed with any covered critical illnesses before the policy anniversary immediately following the insured's 66<sup>th</sup> birthday, the benefit amount is equivalent to 180% of the original sum assured. If the date of the diagnosis is on or after the policy anniversary immediately following the Insured's 66<sup>th</sup> birthday, the benefit amount is equal to 100% of the original sum assured. In addition, the benefit amount includes terminal dividend (if any), less all indebtedness (if any) and benefit payouts under the policy (if any). The insured has to stay alive within 14 days from the date of diagnosis (both dates inclusive) in order to receive the benefit.

The critical illness benefit will terminate after one claim, but your policy will remain in effect, offering you continued protection through the multiple critical illness benefit, self-selected "critical illness" benefit (only applicable to SS plan) (if applicable), and multiple cancer benefit (only applicable to SS plan) We will also waive the undue premiums of the Series, so you can truly relax and recuperate.

If the insured passes away and has not claimed critical illness benefit, we will pay death benefit<sup>2</sup>, which is equivalent to the sum of 100% of the original sum assured and non-guaranteed terminal dividend<sup>3</sup> (if any). The Series will be terminated thereafter.

## Multiple critical illness benefit<sup>1</sup>

### Up to 4 additional claims under multiple critical illness benefit<sup>1</sup>, for up to 700% of the original sum assured in total

The Series offers a multiple critical illness benefit to support you in the troubling event of another illness. If the insured is diagnosed with another covered critical illness after a critical illness benefit claim, and the date of the diagnosis is at least 1 year after the diagnosis in the preceding claim (both dates inclusive)<sup>1</sup>, and the insured is still alive within 14 days from the date of diagnosis (both dates inclusive), we will provide additional benefit. You can place up to 4 claims under multiple critical illness benefit for up to 700% of the original sum assured in total, providing added support so you can focus on your recovery.

Only one claim may be made for each covered critical illness. Standard Plan policies will terminate once you have made 4 claims under multiple critical illness benefit. For SS Plan policies, even if you have made 4 claims under the multiple critical illness benefit, the SS Plan policies will remain in effect provided that cancer has been claimed in the Series before and the multiple cancer benefit has not fully paid the 2 claims.

## Special disease benefit

### Each claim pays 20% of the original sum assured in advance; carcinoma-in-situ<sup>4</sup> enjoys up to 2 claims

When it comes to critical illnesses, early treatment can be the key to a full recovery. This is especially true for early-stage conditions. If the insured is diagnosed with any covered special diseases, and we have not paid the critical illness benefit, we will pay out 20% of the original sum assured in advance for such special disease. Covered special diseases are organized into 6 groups. Up to 2 claims can be made for carcinoma-in-situ under group 1, while 1 claim can be made for each of other groups, subject to a maximum limit of HKD 550,000/USD 68,750 or 95% of the original sum assured per insured, whichever is lower.

After we settle your claim under the special disease benefit, the payout amount will be deducted from the sum assured of the Series. Subsequent premiums and cash value will therefore be reduced pro rata. On the other hand, if we have paid the critical illness benefit, we will not pay out a subsequent claim under the special disease benefit. The total benefit amount of special illness benefit under all in force policies underwritten by China Life (Overseas) shall not exceed the said amount for the same insured.

## Covers 138 illnesses

### Including critical illnesses and special diseases

The Series covers 138 illnesses, including 72 critical illnesses and 66 special diseases. These include common illnesses such as cancer, heart disease, stroke, carcinoma-in-situ and early malignancies.

For the details of the covered critical illnesses and covered special diseases, please refer to the “covered illnesses table”.

## Protection until age 100

### Including the multiple cancer benefit<sup>1</sup> and multiple critical illness benefit<sup>1</sup>

Advances in medical science are contributing to an increase in average life expectancy. This is why all the benefits of the Series covers you up to age 100, including multiple cancer benefit and multiple critical illness benefit to enhance your protection, so there is no need to worry even during your golden years.

For the details of the benefits, please refer to the “benefit schedule”.

## Combines savings elements and protection together

The Series is a participating plan, offering you comprehensive critical illness coverage and death benefit<sup>2</sup>, as well as potential returns with guaranteed cash value and non-guaranteed terminal dividend<sup>3</sup> (if any), so that you can enjoy both protection and wealth accumulation.

## Tips:

### **If the insured is diagnosed with a covered critical illness, does he/she immediately qualify for the respective benefit?**

The insured must survive 14 days following the date of the diagnosis by a registered doctor (both dates inclusive) to claim the critical illness benefit<sup>2</sup>, multiple critical illness benefit<sup>1</sup>, multiple cancer benefit<sup>1</sup> (only applicable to the SS Plan) or self-selected critical illness benefit (only applicable to the SS Plan).

### **Is there a limit on the premium waiver?**

We will waive the undue premiums of the Series after paying out the critical illness benefit<sup>2</sup>. However, if we pay out the special disease benefit, the premiums shall be reduced proportionally only.

### **If the insured has received the benefit amount under the special disease benefit once, will his/her protection or sum assured be affected?**

Special disease benefit is advance benefit. Therefore, the paid special disease benefit (if any) will be deducted from the payout amount of critical illness benefit<sup>2</sup>. After we settle your claim under the special disease benefit, the Series' sum assured, premium and cash value will be reduced proportionally. The death benefit<sup>2</sup> and maturity benefit will be reduced accordingly.

Self-selected critical illness benefit, multiple cancer benefit<sup>1</sup> and multiple critical illness benefit<sup>1</sup> are additional benefits. Therefore their respective benefit amounts will not be affected by special disease benefit paid.

### **How to calculate the waiting period of SS Plan's multiple cancer benefit<sup>1</sup>?**

The waiting period of SS Plan's multiple cancer benefit means the period between the date of diagnosis of the cancer which was previously paid under the policy and the date of diagnosis of the subsequent cancer (both dates inclusive). Say for example, if a new cancer is diagnosed (which is unrelated to the cancer in the preceding claim) and the date of diagnosis is at least 1 year from the date of diagnosis of the previous cancer (both dates inclusive), multiple cancer benefit will be provided. For (i) recurrence or metastasis of the cancer in the preceding claim; or (ii) continuation of the cancer in the preceding claim despite having received or is receiving necessary and active treatment, the waiting period is 3 years (both dates inclusive).

### **The maximum claim limit of the SS Plan is 1180% of the original sum assured. How is that calculated?**

If the insured is diagnosed with a covered critical illnesses before the policy anniversary immediately following his/her 66<sup>th</sup> birthday, we will pay **critical illness benefit<sup>2</sup>** equal to 180% of the original sum assured, provided that no special disease benefit is received. If the insured is subsequently diagnosed with other covered critical illnesses, provided that all claim criteria have been satisfied, we will pay **multiple critical illness benefit<sup>1</sup>**, equivalent to 700% of the original sum assured in total. Assuming cancer is one of the 5 diagnosed critical illnesses, and the insured is diagnosed twice more with cancer, provided that all claim criteria have been satisfied, we will pay the **multiple cancer benefit<sup>1</sup>**, equivalent to 200% of the original sum assured in total. In addition, if the insured is diagnosed with a chosen critical illness, we will pay **self-selected critical illness benefit** (which is payable along with critical illness benefit or multiple critical illness benefit), the benefit amount is equivalent to 100% of the original sum assured. These claim amounts add up to 1,180% of the original sum assured.
