Healthy Life Medical Insurance Plan series

With your increasing demand on a better living standard, a medical plan with basic coverage can no longer meet your needs. In view of the increasing medical expenses along with your needs to stay in a higher-level ward for treatment, we have prepared the Healthy Life Medical Insurance Plan series (the "Plan"), which provides comprehensive reimbursable medical coverage for well-planning people like you. The Plan is a certified plan under the Voluntary Health Insurance Scheme (VHIS), and is divided into 2 classes, namely Healthy Life Medical Insurance Plan and Healthy Life Premier Medical Insurance Plan, and there are 5 plan levels in total. You can choose one of the plan levels that best fits your budget to enjoy a quality protection.

Plan Features

5 plan levels for your selection

The 5 plan levels include the ward level coverage of Healthy Life Medical Insurance Plan, and the semi-private room or private room coverage of Healthy Life Premier Medical Insurance Plan. If you take up Healthy Life Premier Medical Insurance Plan, you may also select supplementary major medical benefit for higher protection. If the actual medical expenses exceed the benefit limit, the supplementary major medical benefit will pay maximum 80% of the excess amount. This way you can focus on your treatment. For details of the benefit item and amount of each plan level, please refer to the benefit schedule.

Guaranteed renewal¹ to age 100

So long as you have enrolled in the Plan successfully, the Plan is guaranteed to renew to age 100 regardless of your health condition and claim history after enrolment.

No claim discount

There will be a discount on premium if no benefits have been paid in the past 3 consecutive policy years or more. The discount will be 15% of the premium of next policy year and to be deducted upon premium payment.

No lifetime benefit limit whilst covering pre-existing conditions

There is no lifetime benefit limit set in the Plan but it is subject to an aggregate benefit limit for each year. In addition, pre-existing conditions are also covered where certain limitation are applied in the first 3 years after the Plan becomes effective. For more information, please refer to item 6 of the important note stated in this product brochure.

Coverage for hospital confinement and surgical fees

The expenses related to room and board, attending doctor's visit fee, specialist's fee, surgical fees and miscellaneous charges during confinement^{2,3} are covered, releasing you from any kind of financial burden. Please refer to the benefit schedule for the benefit amount of each item.

Extended benefit - outpatient care

The Plan not only provides hospital confinement and surgical benefits, but also covers the expenses related to pre- and post-confinement / day case procedure⁴ outpatient care.

Furthermore, the Plan also covers prescribed diagnostic imaging tests (e.g. magnetic resonance imaging (MRI)) for the investigation or treatment of a disability, as well as psychiatric treatments during the confinement in Hong Kong.

What are the key product risks?

Credit risk:

The Plan is a life insurance policy issued by China Life (Overseas). Any premium paid will become part of our assets and our financial strength will affect our ability to meet our contractual obligations to you under the policy. Therefore, you are subject to our credit risk.

Inflation risk:

The cost of living in the future may be higher than expected due to the effects of inflation. Therefore, your current planned benefits and/or returns may be insufficient to meet your future needs even if we fulfill all of our contractual terms and obligations.

Premium adjustment and renewal:

China Life (Overseas) reserves the right to review and adjust the premium rates on each policy anniversary. Factors leading to premium adjustment include but not limited to the experience in claims, policy surrender, investment return, expenses and medical cost incurred by and/or in relation to the Plan. In addition, the policy is renewable for each policy year in accordance with the terms set out in “Part 4 – renewal provisions” of the policy provision, and the renewal is guaranteed up to the age of 100 of the insured person. For details of the terms, please refer to the policy provision.

Irrespective of whether China Life (Overseas) revises the policy upon renewal, China Life (Overseas) shall have the right to adjust the standard premium according to the prevailing standard premium schedule adopted by China Life (Overseas) on an overall Portfolio basis. For the avoidance of doubt, if the premium loading is set as a percentage of the standard premium (i.e. rate of premium loading), the amount of premium loading payable shall be automatically adjusted according to the change in standard premium.

During each policy year and upon renewal, China Life (Overseas) shall not impose any additional rate of premium loading (or any additional amount of premium loading if the premium loading is set in monetary terms rather than as a percentage of the standard premium) or case-based exclusion(s) on the insured person by reason of any change in the insured person’s health conditions.

In addition, China Life (Overseas) reserves the right to review the terms and conditions and/or benefits schedule of the Plan from time to time. China Life (Overseas) will provide you a written notice 30 days before renewal date by ordinary post to your last known address in China Life (Overseas)’s records.

Policy termination:

The policy shall be automatically terminated on the earliest of the followings and at 00:00 hours of the effective date of termination: (a) non-payment of premiums after the grace period; or (b) the day immediately following the death of the insured person; or (c) China Life (Overseas) terminates the policy requested by the policyholder; or (d) China Life (Overseas) has ceased to have the requisite authorization under the Insurance Ordinance to write or continue to write the Plan.

If the policy is terminated under (a) or (c), in the case where the insured person is being confined or is undergoing prescribed non-surgical cancer treatment for a disability suffered before such termination, then, with respect to the confinement or treatment in relation to the same disability, eligible expenses incurred shall continue to be covered under the policy until (i) the insured person is discharged or the treatment is completed or (ii) 30 days after the termination of the policy, whichever is the earlier.

Effective from 1 January 2018, all policyholders are required to pay a levy on each premium payment made for both new and in-force policies to the Insurance Authority (the “IA”). For levy details, please visit our website at www.chinalife.com.hk or contact our customer service hotline at 399 95519 or visit IA’s website at www.ia.org.hk.
